## **Alpine Garden Club of British Columbia Seed Exchange 2018**

We are very grateful to all those members who have made our Seed Exchange possible through donating seeds, and to those living locally who volunteer so much time and effort to packaging and filling orders.

READ THE FOLLOWING INSTRUCTIONS CAREFULLY BEFORE FILLING IN THE REQUEST FORM. PLEASE KEEP YOUR SEED LIST, packets will be marked by number only. Return the enclosed request form by mail or, if you have registered to do so, by the on-line form, as soon as possible, but no later than DECEMBER 12.

Allocation: Donors may receive up to 60 packets and non-donors 30 packets, limit of one packet of each selection. Donors receive preference for seeds in short supply. (USDA will permit no more than 50 packets for those living in the USA).

**List first choices by number only, in strict numerical order, from left to right on the order form.** Enter a sufficient number of second choices in the spaces below, since we may not be able to provide all your first choices. Please print clearly.

Please be aware that, for the first time, we have listed wild collected seed (W) and garden seed (G) of the same species separately, which is more convenient for people ordering on line.

USA members: you must include 1) your permit for importation of small amounts of seeds (PPQ Form 587); 2) the provided inspection station address label; 3) a label with your name and home address; and 4) a clearly printed, alphabetical list of your first and second choices. Leave space on the right side of the page for us to enter the information required by USDA.

NZ members: please include a list of seeds requested, as required by MAF. If you are ordering on-line, please forward a copy of your order to Pam Yokome.

Australian members please include a list of seed as required by AQIS. If you are ordering on-line, please forward a copy of your order to Pam Yokome.

**Mail seed requests to:** Pam Yokome

## **Alpine Garden Club of British Columbia Seed Exchange 2018 Available On-line**

You can also request your seeds on-line!

On-line seed selection is quick and easy and has a number of extra benefits:

- Linked Google search on each seed name to get instant information about that species;
- Instant recognition of seed donors, who are entitled to 60 seed packets;
- Review and change requests before submitting;
- Send a message with your seed request;
- Receive list of names of requested seeds by email.

To use the on-line seed selection you need to be logged into the club's website with your email address and password.

If you have not registered your email address with the club or need a temporary password for access, please send a request to the Membership Secretary, Jane Byra at **[membership@agc-bc.ca](mailto:membership@agc-bc.ca)**.
