

Witton Lane Seeds

Richard Hobbs and Sally Ward

16 Witton Lane, Little Plumstead, Norwich, NR13 5DL

JANUARY 2017 Welcome to our list of recently harvested seed.

Clematis special

Quantities of seed will be sufficient to sow in a 7cm pot i.e. a minimum of 6 seeds of the scarcer plants but usually more.

As many items are in short supply please add a few alternatives and use the 'limited cheque' method of payment i.e. in crossed lines 'amount not to exceed.....' followed by the maximum amount of your order plus post and packing charge. Please make cheques payable to '*Witton Lane Seeds*'.

Postage & Packing - £1.50 for the UK. **NB. Minimum order is £10.00**

Europe – **P & P £3.50**

Elsewhere **P & P £4.50**

Please pay by International Money Order in sterling or a sterling cheque drawn on a London clearing bank or you can use the IBAN system. If you wish to send cash please send **Pounds sterling** or **Euros**.

If in doubt please email - sally.ward246@btinternet.com. If you would like to receive our lists by email in future please let us have your email address.

Thanks to Bob and Ann Armstrong and Mike Brown of Clematis Corner.

Clematis

Thanks to Mike Brown of Clematis Corner we are able to offer an exciting range of Clematis seed, both of species and interesting cultivars that are known to produce good offspring.

Clematis

- campaniflora ex 'Lisboa' – a deciduous climber with wonderful blue/purple blooms in profusion in summer and autumn. Good looking seeds. 3-5 m. 2.50
- fusca – from a red/brown version with larger than normal flowers. Herbaceous climber to 3m. Strikingly different. 3.00
- heraclifolia mixture – from over a dozen forms of this lovely herbaceous perennial. White to blue to dark purple tubular and often scented flowers. Late summer and autumn. 1 - 1.5m. 2.50
- heraclifolia – dwarf blues and pinks. Small tubular flowers on low growing plants. 25-50cms. very attractive and unusual. 3.00
- integrifolia mixture – from at least 20 types including whites, pinks, blues, purples, bicolor and scented forms. Summer and autumn. Attractive seed heads. 0.5 - 1.5m. 2.50
- intricata – a deciduous climber with similar bells to *C. tangutica* but in attractive red and orange shades. Autumn. Lovely silky seed heads. 1 - 3m. 3.00
- ladhakiana – a deciduous climber with glaucous green very narrow leaflets. Yellow to orange bells flecked with dark red. Good seed heads. 2 - 3m. 3.00
- rehderiana – cowslip shaped and cowslip scented creamy-yellow flowers in profusion. Vigorous and unbelievably floriferous. 3-4m. 2.50
- viticella mixture – from 20 plus cultivars of all colours shapes and sizes. Summer and autumn. 2 - 3m. 2.50
- spp. From the USA – an exciting mix of species that hybridize readily including *C. crispa*, *glaucophylla*, *reticulata*, *versicolor texensis* and *viorna*. All produce gorgeous flowers from pure white through all shades of pink, red, blue and purple. Most will have urn shaped flowers and good seed heads. 2 - 3m. 3.00
- ex 'Buckland Beauty' – a *texensis* hybrid with pink, shiny urn shaped flowers in profusion. An herbaceous climber to 2 - 3m. 2.50

ex 'Burford Bell' - a plant with fleshy rolled back sepals and urn shaped flowers of purple/blue. A real eye catcher. An herbaceous climber to 3m. 3.00

ex - 'Myofuku' - named after a Japanese temple which means sublime bliss. A texensis hybrid with deep pink and cream urn shaped flowers.
A stunning plant with good seed heads. 2.50

ex 'Shillingford Lanterns' - a very fine tangutica hybrid with many large yellow bells followed by fluffy seed heads that remain until March. 2 - 3m. 2.50

**We have our garden open on Sunday 2nd April 2017.
