Seed Exchange 2026

Alpine Garden Club of British Columbia
Seed Exchange 2026

We are very grateful to all those members who have made our Seed Exchange possible through donating seeds, and to those living locally who volunteer so much time and effort to packaging and filling orders. Also a special thanks to our new donors, they are our future!

Please use the online system to request your seeds. Click on the link below to access the online system. You will receive an email with a list of seeds requested. You must be logged in with your email and password to access the system.

https://www.agc-bc.ca/seed-list

If you prefer you can send a list of your seed numbers by email to seedrequest@agc-bc.ca

So that members can get their requested seeds faster, we are not accepting snail mail seed requests. You must use the online system or send your list of seed numbers by email. Deadline for submitting your request is November 22, 2026.

Allocation: Donors may receive up to 60 packets and non-donors 30 packets, limit of one packet of each selection. Donors receive preference for seeds in short supply. (USDA will permit no more than 50 packets for those living in the USA.). For non-donors you have a better chance of receiving your first choices the earlier you submit your request.

Seed is garden grown unless it is marked W for wild collected.

Names are mostly according to Kew: Plants of the World on-line. The taxonomists have been busy, so there have been a number of name changes.

United States members please email the following documents to seedrequest@agc-bc.ca:

1) your permit for importation of small amounts of seeds (PPQ Form 587);
2) the provided inspection station address label;

Australian members: please include a list of seeds requested as required by AQIS.

New Zealand members: please include a list of seeds requested, as required by MAF.

Any queries to: seedrequest@agc-bc.ca

THANKS TO OUR SEED CONTRIBUTORS AND PACKAGERS

Once again, very many thanks to the people who worked so hard to collect seeds in their gardens and in the wild. It is our donors who make our exchange possible and we are very grateful to them.!

THANKS TO OUR SEED DONORS 2026
